## Education

**Vellore Institute of Technology** | B. Tech. in Computer Science Engineering  
**Jagdamba Jr. Science College** | Higher Secondary Education | Grade: 93%

Sep 2021 - Sep 2025  
Mar 2020 - Mar 2021

## Projects

**VIT Mess** | Flutter, Dart, JavaScript, Android, iOS, Web

[Github](#) | [Demo](#)

- Engineered a cross-platform application and website for VIT University students, enabling real-time search of available mess food items, reducing food waste by 20%.
- Enhanced the dining experience for over 10,000 students by reducing time spent searching for food by 15%.
- Achieved over 4,000 downloads on Play Store with a 4.8-star rating, and garnered over 3,000 daily website visits.

**AI Chess** | Flutter, Dart, Flame, Android, iOS

[Github](#) | [Demo](#)

- Created a sophisticated cross-platform chess application with built-in AI and multiplayer options, securing a user base of 35,000 within the first quarter.
- Reached 151 million potential users by contributing to chess education for users of all ages.
- Implemented user feedback to improve app usability and interface, achieving over 150,000 downloads and maintaining a 4-star rating on the Play Store.

**YoDoc** | Flutter, Dart, Android, iOS

[Github](#) | [Demo](#)

- Developed a mobile doctor app that allows users to search for symptoms and get first-aid medication recommendations, providing quick and accessible healthcare information.
- Conducted comprehensive code audits resulting in a 25% reduction in user-reported issues.

**CropShop** | Flutter, Dart, Android, iOS, Firebase

[Github1](#) | [Github2](#)

- Developed user-friendly interfaces for user and admin apps, increasing efficiency by 45%.
- Implemented Firebase for real-time database and authentication for inventory management, order processing, and user interactions, cutting manual entry time by 50% and boosting transaction volume by 30%.

## Work Experience

**Ethnus**

Aug 2023 - Nov 2023

**MERN Full Stack Intern**

- Rapidly adapted to evolving project requirements by integrating cutting-edge technologies and innovative concepts, resulting in a 30% boost in overall system efficiency and a 25% decrease in development time.
- Revamped web applications and resolved performance issues, leading to a 20% increase in user traffic.
- Managed a multidisciplinary team, streamlining processes across teams to achieve a 40% rise in project completion rates and a 30% reduction in project completion time.

**ShoppCard**

Aug 2025 - Nov 2025

**App Dev Project Lead**

- Led a team of 5 developers to build a Flutter-based Office Management App, achieving 100% on-time delivery and ensuring seamless collaboration with design and backend teams.
- Implemented advanced architecture, boosting efficiency by 35% and reducing release cycles by 30%.
- Enhanced app stability and performance, cutting post-release bugs by 40% and improving user satisfaction by 25%.

## Skills

**Languages:** Python, JavaScript, Dart, HTML, CSS3

**Technologies & Tools:** Flutter, Git, Version Control, Android, Firebase, Rest API, AWS

## Awards and Certificates

- Awards:** Smart India Hackathon Finalists, Hacktoberfest Contributor, GirlScript Summer of Code (GSoC) Contributor
- Certificates:** [AWS Cloud Practitioner](#), [NPTEL Cloud Computing](#), [Industrial IoT Markets and Security - University of Colorado Boulder](#), [Google UX Design](#), [Google Play Store Listing](#)
